EKO-DEKALOG

- I. Our cosmetics are made in a **small handmade manufacture workshop nearby Wroclaw**, Poland. They are handcrafted with passion, care and dedication by a team of nature enthusiasts.
- II. All our products are free from parabens, synthetic pigments, silicone, artificial extracts, petroleum derivatives, glycols and all other horrible substances that you read so much about in all eco-guidebooks out there.
- III. We use only **thoroughly-tested** certified ingredients.
- IV. We follow **Fair Trade** standards and support our local Polish market.
- V. We support **Cruelty-Free** campaign and we make sure that no animal is getting hurt in the production process of all our products and the ingredients that we use. Neither we use palm oil, nor any substances of animal origin acquired in a way that is harmful to the environment.
- VI. Our cosmetics are filled with happy vibes and love particles due to the fact that the atmosphere in our workshops is very positive and we simply **love** what we do.
- VII. We - the people that make Ekomania Lab cosmetics - are their first users and we only share with our clients the products that we test, **accept and fall in love with**.
- VIII. Ekomania Lab cosmetics are non-commercial, **organic elixirs and concentrates**. Use them wisely according to common-sense healthful rituals of cleansing, toning and nourishing your skin.
- IX. We recycle as much as we can and follow **Zero Waste** philosophy. If only it is possible, we offer an option to buy our cosmetics in reusable glass containers.
- X. Remember! You are **beautiful, special and unique!** Hug trees and smile a lot because this makes people live a happy long life and makes the world a better place!

! - All **Ekomania Lab** cosmetics are significantly different from ordinary commercial creams. At first, they might seem hard to spread and pat them into your skin but that's the beauty of them. They do not contain any glycols or other dissolvents, silicones, polymers, acryl derivatives or any other substances that facilitate the spreading of the cream and give it lubricity.

! - High concentration of butter and oil makes our creams very efficient. It is recommended to use a **very small portion** at a time, about the size of a pea grain.

! - If any of products delaminates, it is due to the fact that it doesn't contain stabilizers or any other artificial substances that are meant to preserve its consistency. In case that happens, shake or stir it thoroughly to bring it back to the original form.

SKINCARE LINE WITH SNAIL SLIME FILTRATE

BESTSELLER

This line of our cosmetics is all about ultra moisturising and revitalizing.

Snail slime is a very valuable active substance and it is perfectly balanced. It has particularly high biocompatibility with human skin.

YOUR EVERYDAY SKINCARE RITUAL

PEELING

It cleanses your skin, helps prevent flaws and eliminate the feeling of heaviness. Depending on your skin type we recommend either mechanical peeling (containing corundum) or enzymatic one for sensitive and/or capillary skin. The right washing and cleansing of your skin is **the fundament of skincare** and the basis of using organic cosmetics.

TONER

It restores natural pH, increases the absorption of creams, moisturises the skin and reduces the risk of occurrence of unwanted bacteria.

CREAM

It nourishes and moisturises the skin. An amount of the size of a pea grain should be applied on wet skin and patted with your fingertips. (do not rub it in!)

SERUM

It nourishes, moisturises and firms the skin. It is a highly concentrated product and only a tiny portion of it should be applied, always just before putting on your favourite cream.

OIL

A small amount of oil should be applied on wet skin. This is the only way for it to get absorbed well and moisturise your face.

BASIC FRUIT AND HERBAL LINE

SCRUBS / CREAMS

FRUIT MICRODERMABRASION

SUNNY KISS Tanning Cream

a moisturising, gradually tanning cream for every-day skin care. It gives it a **sun-kissed look**. 50 ml ⚙️

BATH AND BODY

Gently **bathing, cleansing** and nourishing organic cosmetics for hair, scalp and body. They moisturize and firm it and make it glow and look healthy.

Eco-shampoos and gels are free from irritating detergents, silicones and other petroleum derivatives that ease the application and brushing.

! Treat and look after your **scalp** as it was any other part of your body. It also needs peeling, adequate cleansing and moisturising. Using masks with no prior cleansing of your scalp and hair overwhelms them and doesn't allow the active ingredients to penetrate the skin deeply.

Apply masks on **wet hair**. Do not rub them in the scalp to avoid overwhelming the mouths of hair follicles.

We recommend using **hair brushes** made of natural bristles as they close the cuticles of the hair.

ekomaniasklep
